Removal Notice

Welsh & Wiseman Gompany

On or about May 5th we will move our entire stock of goods to the Lapsley Store rooms, in and adjoining the Hotel Annex on East Main street, formerly accupied by Pushin Brothers, where we will be temporarily located during the time required for erecting a modern store building on the site of our present premises.

Our original intentions were to remodel our old building, but the opportunity presented by these vacant store rooms enables us to completely vacate our present building, and we have decided to carry out a long-cherished plan of erecting just the kind of a modern store that we require for our ever-increasing business

The loyalty of our friends has made this possible, and we ask you to visit us in our temporary quarters, where you will find the same high quality of merchandise, and a most hearty welcome.

All readers of the newspapers are familiar with the project, which embraces the erection and maintainance of a splendid road from the lakes to the gulf, running from Chicago to R. L. There has been considerable friction concerning the proposed route through this state, one faction desiring it to enter the state at Cincinnati and run through the far famed Bluegrass region, and the other wanting the road to come by way of Louisville. In regard to the two routes there can be no proper comparison, as the Bluegrass route is in every way the more desirable. Future travelers over the road will always desire to see the richest and most beautiful part of Kentucky, and of course the Bluegrass has no rivals in the state in this particular. is a handsome chestnut with beautiful mane and tail; is 15.3 hands and will weigh about 1,150 pounds; has the very best of feet and legs; good flat bone, broad sloping shoulders; short, stout back and a horse of the most wonderful endurance. He is an impressive horse, standing still and is more so in motion; sets hinself just right, never touches himself any where and has exceptional speed at the rack and trot. He was ony of the most successful horses shown last year. He was shown at three fairs and won the combined stallion class at

Kentucky Gentleman has the qualities that are necessary to the production of a perfect horse-color, size, style, speed, action, and endurance, and ideal breeding. He is sired by Chester Peavine 3184, by Rex Peavine 1796, by Rex McDonald 833. Dam, Flora Carter 8419, by Red Squirrel 53, by Black Squirrel 58, by Black Eagle 74, by King William 67.

In offering the services of this grand young horse to the public, I feel I am giving them their money's worth. Give him the same class of mares and I do not believe there is a horse in the State that will beat him producing high class colts (no matter how high the service fee.) Breeding to Kentucky Gentleman is no longer an experiment. Bting him a good mare and he will get you an extra good coit. Do not take your mares thirty or forty miles to breed when you have just as good a horse fight at home and for less than half the money.
